

PAPS

Preferred Anatomic Pathology Services

Dear Physician,

This letter is to inform you of PAPS Pathology's ability to maintain a standing order for automatic HPV & STI tests on all ThinPrep pap smears (vaginal or cervical). This will serve as a convenience to both the clinician and the patient and will expedite our turn-around-time on results back to your office. To order this testing, please complete the following information and return to PAPS.

****Please note that ASCUS does not include: LSIL, HSIL, ASC-H, OR AGC. Abnormal includes ASCUS, LSIL, HSIL, ASC-H and AGC.****

****HPV HIGH RISK PANEL includes the following HPV genotypes:**

- 16, 18, 45, 31, 51, 52, 35/39/68, 33/58, 56/66/59

I request that PAPS Pathology provide the following tests as a standing order:

- Reflex HPV HIGH RISK PANEL on **ASCUS for patients 21-29 years old**
- HPV HIGH RISK PANEL **CO-TESTING** for patients **age 30-64 years old**
- Reflex HPV HIGH RISK PANEL on all **Abnormals**
- CT/NG on all women under 26 years old
- CT/NG on all pregnant patients
